They plan to complete work beginning from the west side of the building to the east side of the building and have an anticipated date of completion to be late 2023.

Councilman Morgan inquired about the removal of a chimney on the property and the planned restoration for the top of the building. Councilman Morgan noted that Council had received recommendations through HARB but had an inquiry regarding that work and roofline. Matt Rockwell relayed the demolition of the chimney had been scheduled to be removed and that the structure will have a new roofline as it will receive a new roof system. President Stoner asked Mayor Pedersen to confirm that the Fire Board is seeking to decrease the municipalities representation on the board, but they continue to ask for more money. STREETS:

Councilman Paul Sipes noted that PennDOT reported that they will be out completing some rail repairs and sidewalk patching along the creek. He reviewed that the brake retarder signs have been installed, but others need to be added to W. Seminary. Councilman Paul Sipes noted that the Committee discussed that they have an Ordinance that prohibits truck traffic on Mercer, W. Seminary, and California Streets. He said that they just need to decide what type of signage and how much enforcement. He stated that the Committee also noted some bushes along W. Seminary Street need to be trimmed, due to line of site difficulties. Councilman Paul Sipes asked if Borough Manager Price had mailed out the letter to the property owner. She said that she had not gotten to it yet.

COMMITTEE RECOMMENDATION: for Borough Council to consider increasing the Parking Meter Ticket fine from \$5.00 to \$10.00 to discourage illegal parking.

Councilman Paul Sipes noted that they have completed sidewalk inspections along Linden Avenue, Oregon Street, and Park Avenue. Some sidewalks along Linden Avenue were found to have buckling and need to be repaired. He reviewed that the Borough should send notification by letter to the property owners stating the sidewalk deficiencies and the required repairs to be completed within 6 months, or the end of summer.

Councilman Paul Sipes said that those letters should also be sent out.

Councilman Paul Sipes said that they have only inspected the sidewalks that they received complaints about.

Councilman Paul Sipes reviewed that they have to look into the Ordinance where parking is addressed across for Philips Flowers, as individuals are parking over the sidewalk and parking in grass. He noted they may need to make changes to the Ordinance, but this is something the Committee will look into further.

Councilman Paul Sipes reviewed that the Committee would review a map of the parking meters. The Committee would like to discuss the removal of some parking meters so they can be cannibalized for parts as it is extremely difficult to get parts for the older meters.

A question arose regarding Sidewalk Loans and if approval was determined on credit. A suggestion that the available loan details be included in the letters. Councilman Raymond Minton said that he never heard anyone being turned down for a loan, but that someone should inquire about it. A question arose regarding the UDAG Fund, President Stoner noted that the Finance Committee Meeting would occur once Tessa Holtry arrived with the anticipated start date of sometime mid-March.
